

Barefoot Bay Kindle World

Cast of Characters

Barefoot Bay is populated with a range of characters, many of whom appear in every book. Every story has a hero and heroine (noted in bold on the PDF file) and many secondary and surrounding people who work at the resort, live on the island, and run businesses, restaurants, and services. All of the named characters are listed in this document, with as much detail as it makes sense to provide or that has been stated in the existing books.

These characters are available for use in any Barefoot Bay Kindle World story, but I urge writers to read the Amazon and Roxanne St. Claire guidelines regarding the characters. Some characters (specifically those in the Barefoot Bay Undercover series) originated in a separate series (The Guardian Angelinos) that was published in 2010 and 2011. Those characters are not available as main characters for any story for legal reasons. (That includes Gabe Rossi, Nino Rossi, Vivi Angelino Lang, Francesca Rossi.) They may be mentioned and have dialogue, however.

Writers are strongly urged to create their own heroes and heroines rather than use existing characters, but use these characters to add to the rich atmosphere of Barefoot Bay.

Alphabetical order; primary characters **bolded**

The following list includes main characters (in bold) and the secondary and tertiary characters mentioned in the Barefoot Bay books who reside on the island or who play key roles in the stories.

Other named characters who are not local to Barefoot Bay or central to one of the books are not included in this list.

Regarding character's precise ages: The series spans about approximately 5 - 6 years so far, from the hurricane that opened the first quartet to present time. Character's ages are listed as the age they were at the time of the first book they appeared in. If you are unclear of a character's age, especially the children, contact the author or her assistant.
